CAREER OBJECTIVE

- Entry-level Software Developer with strong foundations in Python, Java, Data Structures, Algorithms, and Database Management, eager to build scalable and efficient applications.
- Motivated Computer Science graduate with hands-on experience in software development and web technologies, seeking to contribute to high-performing engineering teams.
- Entry-level Software Developer with strong foundations in Java, Python, Data Structures, Algorithms, and Database Management.
- Team-oriented individual eager to contribute to innovative software projects while continuously learning and growing as an engineer.

EDUCATION

Karpagam College of Engineering

Sep 2023 – May 2027

B.E. Computer Science and Engineering, Coimbatore

Current CGPA: 7.62

Relevant Coursework: Computer Networks, Database Management Systems, Operating Systems

CERTIFICATIONS

- Pointers in C Programming Infosys Springboard
- C Programming Infosys Springboard
- NPTEL Education for Sustainable Development
- AWS Certified Cloud Practitioner (CLF-C02)
- CCNA:Enterprise Networking,Security, and Automation
- ServiceNow Creator Studio Delivery Accreditation

PROJECTS

Freelance Service Marketplace

- Developed a full-stack freelance marketplace connecting clients and freelancers through project posting, proposal management, and contract handling.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC) to ensure secure access for Clients, Freelancers, and Admins.
- Built modules for milestone tracking, dispute resolution, payment management, and real-time work collaboration.
- Integrated SQL and MongoDB databases with RESTful APIs and deployed the application using Vercel and Render.

Internship

- Developed and enhanced Java-based applications using Object-Oriented Programming (OOP) principles.
- Implemented core Java concepts including classes, objects, inheritance, polymorphism, and exception handling.
- Worked with JDBC to connect Java applications to relational databases for data storage and retrieval.
- Assisted in debugging, testing, and optimizing Java code to improve performance and reliability.

TECHNICAL SKILLS

- **Languages:** Python, C, Java, SQL
- **Web:** HTML, CSS, JavaScript
